

NFM Land Plan: B: Gathering/Playground area

This section of the plan is the Court Street entrance to the Meetinghouse. It is the west side of our property. The current version of the plan contains the following elements for your consideration:

Item#	Element	Description
1B	Patio or Deck from Gathering Room exit	<p>The plan includes space for a deck or patio accessible from the door in the Gathering Room, with a connecting pathway or ramp to the back porch. There s a small access door to a utility crawlspace under the Meetinghouse in the southwest corner. Access to this space needs to be maintained.</p> <p>Option 1: Patio- a hardscape patio at ground level with a level path to the back porch</p> <p>Option 2: Deck – a synthetic decking material flush with the door with a ramp to the porch</p>
2B	Playground	The playground will be left as is. Changes can be considered when it needs to be replaced.
3B	Trees and Shrubs	There are currently some trees in this area. The plan adds additional trees and shrubs (indicted in a reddish color on the plan). Adding more young trees will help maintain the canopy as our older trees are removed due to natural aging or safety issues.
4B	Dying Tree	The large oak near the playground is dying. In the last few years multiple large limbs have created a hazard and have been removed. A consulting arborist believes the tree cannot be saved. Building and Grounds plans to have the tree removed.
